Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Romanian Patent No. RO 668333 in view of Ray et al. The Romanian patent discloses a method comprising grinding and smelting scrap cermet to recover W, but does not disclose the source of the scrap cermet as being an anode. Ray et al discloses that a cermet inert anode may contain W (col. 4, lines 32-40). It would have been obvious to one of ordinary skill in the art at the time the invention was made to treat an anode containing W, as disclosed by Ray et al, by the process of the Romanian patent, the motivation being to recover W, a valuable metal.

Allowable Subject Matter

Claims 6, 7, 17 and 25-32 are allowed at least for the reasons advanced in the previous office action, mailed on 3/4/2005.

Response to Arguments

Applicant's arguments filed on 7/1/2005 have been fully considered but they are not persuasive. Applicant's argument that claim 22 is allowable since this claim was indicated allowable in the last office action, mailed on 3/4/2005 is not persuasive because this claim was

Art Unit: 1742

not indicated as being allowable, but was expressly rejected, along with now canceled claims 2, 3, 12, 13, 20 and 21 as expressed above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
